Centralization – Metadata Update

Severity: Medium

function: Token metadata

Status: Open

Overview:

Metadata of a token includes details such as its name, symbol, image, and other relevant information.

The authority to modify this metadata resides with the owner of the token contract.

Suggestion:

The updateAuthority holds the power to alter the token metadata, including aspects like the name, symbol, and logo.

While changes of this nature are uncommon, it is important to acknowledge that they can occur.
